

## COVID SAFETY PROCEDURES:

1. Face masks are **optional**.
  - Students may wear face masks as desired by the parents/guardians.
  - Our teachers will also have the option of wearing face masks if they choose.
2. Parents must sign a waiver form for their children.
  - Signed waiver forms for each student must be on file, signifying that parents/guardians understand TCS is not liable if your child were to contract COVID-19. We cannot guarantee that our TCS family is 100% risk free of contracting COVID-19.
3. Water fountains will be available.
  - Students are encouraged to bring labeled water bottles that can be used during the school day and refilled at water fountains.
4. Afternoon Pick-Up
  - In an effort to keep classes separated, classes will be dismissed at specific times. There will be several lanes with signs posted directing you where to go.
  - All pick-up traffic will enter campus from Greenville Blvd. & exit campus onto Golden Rd
5. Positive Cases
  - If a student or teacher/staff tests positive for COVID-19, they will be required to quarantine for the recommended 5 days.
  - They will be permitted to return to school after this quarantine period, but they must wear a mask for an additional 5 days starting immediately after quarantine period. If the individual elects not to wear a mask, they will not be permitted into school until those 5 days have passed.
  - If a student or teacher/staff has been exposed (including while on campus), we ask that they monitor for symptoms. If COVID-19 symptoms are present, particularly a fever, we ask that the individual be tested. If you would rather not test, you will be required follow above procedures for a positive case.
  - Students will not be required to miss school if a sibling has tested positive. They will follow exposure procedures listed above.
